***Response to Arguments***

1. Applicant's arguments, see the response, filed 3/12/04, with respect to claims 12-14, 18, 20-24 and 28-31 have been fully considered and are persuasive. The rejection of claims 12-14, 18, 20-24 and 28-31 has been withdrawn.

Applicant argues that the teaching of Schmitz would teach away from the primary reference of Humphrey since the reference of Humphrey is uses powered pre stretch rollers to overcome the disadvantages of freely rotating pre-stretch rollers as disclosed in Humphrey Column 3, Lines 11-21. The examiner agrees with this argument and the rejection of claims 12-14, 18, 20-24 and 28-31 has been vacated.

**REASONS FOR ALLOWANCE**

2. The following is an examiner's statement of reasons for allowance: the wrapping apparatus with a film dispenser that is comprised of first and second freely rotatable pre-stretch rollers, a freely rotatable pendulum roller and a freely rotatable deflecting roller where the rotational movement of the rollers is accomplished by the movement of the wrapping film has not been suggested by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
